

MP-001 Work Health, Safety and Injury Management

1. OBJECTIVE

The City of Swan aims to be a leader in Work Health, Safety (WHS) and Injury Management (IM) in the workplace.

2. MANAGEMENT PRACTICE

The City of Swan is committed to developing, implementing and maintaining a safe workplace. This will be achieved by:

- A strong focus on and commitment to reducing the risk of injury and damage in the workplace.
- WHS and IM planning processes and clear objectives, with an emphasis on continuous improvement of systems, work practices and procedures.
- Implementing best practice WHS principles throughout all the City's operations and locations.
- Ensuring that the requirements of the Work Health and Safety legislation and other related legislative requirements are met.
- Ensuring that all workers, visitors and suppliers comply with all relevant City policies, processes, standards, systems and procedures.
- Having robust consultation processes with workers and suppliers.
- Ensuring all objectives and activities of the Work Health and Safety Management System (WHSMS) are properly resourced.
- Where a worker has been injured, their return to work at the earliest opportunity will be facilitated by a careful and well planned approach.

A commitment to the effective implementation of the Work Health and Safety Management System by workers and all levels of management is required to ensure that risks in the workplace are effectively minimised.

Management are committed to playing a leading role in ensuring workplace safety for all workers and visitors.
